

Create The IBM Watson IOT Platform And Device

TEAM ID: PNT2022TMID44065

The screenshot displays the IBM Cloud IoT Platform console. The browser address bar shows the URL: `cloud.ibm.com/services/iotf-service/crn%3Av1%3Abluemix%3Apublic%3Aiotf-service%3Aeu-de%3Aa%2F7...`. The IBM Cloud header includes a search bar and navigation links for Catalog, Manage, and the user account 'Deenadhyalan K's Acc...'. The resource 'Internet of Things Platform-u2' is shown as 'Active' with 'Add tags' and 'Details' options. The left sidebar lists 'Manage', 'Plan', and 'Connections'. The main content area features a large graphic of a central square with four lines extending from it, each ending in a small circle. To the right of the graphic is the text 'Let's get started with IBM Watson IoT Platform' followed by a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this is a 'Launch' button and a 'Docs' button. Further down, a section titled 'Ready for the next level?' introduces the 'IBM Watson IoT Platform Journey'. It compares two service plans: 'Lite' and 'Non-Production'. The 'Lite' plan is marked with a checkmark and includes features like being free, 200 MB data-transfer limit, 500 application bindings limit, and 500 registered devices limit. The 'Non-Production' plan is marked with a circle and includes features like starting at \$500 per month, capacity limit based on device type, and optional Analytics Service and Blockchain Service add-ons.

Let's get started with IBM Watson IoT Platform

Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.

[Launch](#) [Docs](#)

Ready for the next level?

IBM Watson IoT Platform Journey

☒ **Lite**

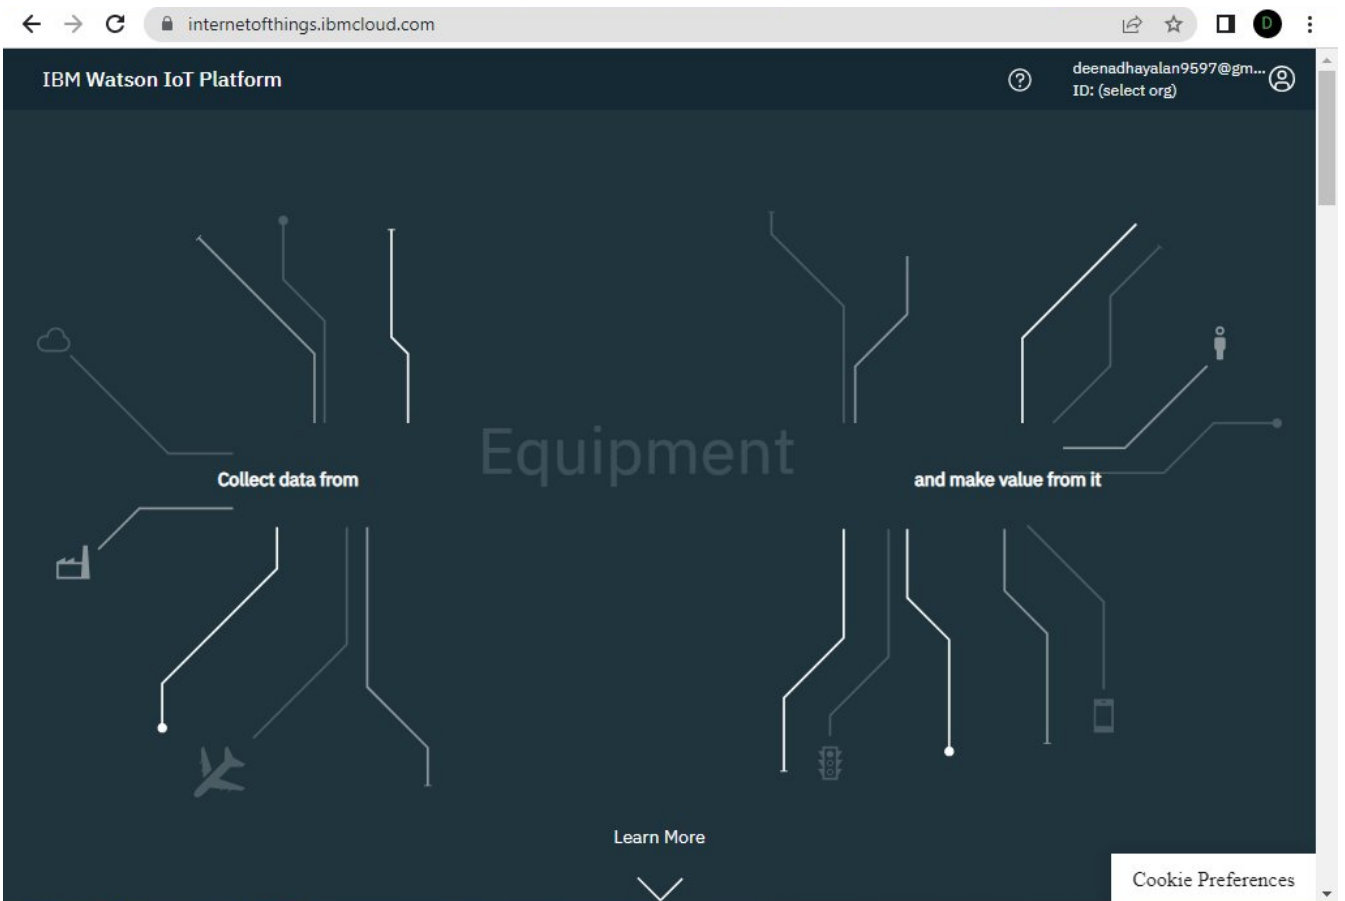

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

- Free
- 200 MB data-transfer limit
- 500 application bindings limit
- 500 registered devices limit

☐ **Non-Production**

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

- Starts at \$500 per month
- Capacity limit based on device type
- Optional Analytics Service and Blockchain Service add-ons
